THE SNOW KING

Is Monarch of America to-day—A
Storm in Many Respects Unpre-
cedented Has the Country in
its Clutches to-day.

Philadelphia, Pa., Dec. 27.—The sleet
storm which followed last night's fall of
snow appears to have wrought great
damage to the telegraph and telephone
circuits within a radius of fifty miles in
this city. The Western Union and Post-
al Telegraph companies are badly
crippled on every circuit. The snow is
from four to eighteen inches deep over
Pennsylvania to-day. Six horses and
two mules were killed to-day by coming
into contact with some deadly electric
light wires blown down by the storm.

A BLIZZARD AT CHICAGO.

Chicago.—The mercury fell with the
snow here to-day and the storm developed
into a veritable blizzard. Railway trains
were generally on time but street block-
ades were numerous.

GOLD AT TORONTO.

Toronto, Ont.—A blizzard struck the
city early this morning. The velocity of
the wind decreased about noon, but the
snow is still falling.

CAUTION IN A STORM.

Martins Ferry, O.—John Moreland was
frozen frozen this morning at Gleims Run,
near home. He was an old soldier and
had worked in the Elson glass factory.
He started to walk home from here last
night and was caught in the storm.

WINDY IN NEW YORK.

New York.—There is no direct tele-
graphic communication between this city
and Sandy Hook, owing to the storm.
All messages are received by way of
Long Branch. At Sandy Hook the wind
is blowing a moderate gale from the
northeast. Reports from the interior
indicate more or less serious interruption
to railway traffic, central New York show-
ing the most general disturbance.

HEAVY SNOW AT PITTSBURGH.

Pittsburg.—The snow storm which
started last evening proved the heaviest
known here for several years. Up to 10
o'clock this morning twelve inches of snow
had fallen and it is still snowing. Street
car travel in the city is seriously inter-
fered with and in some parts of the city
telephone and telegraph wires are down.
The blizzard was general over this sec-
tion and especially severe in the Al-
leghany mountains where the snow drift-
ed and impeded travel. Through trains
from the east are from four to seven
hours late and from the west nearly as
much behind time.

THIRTY INCHES OF SNOW.

Dubuque, Pa.—The snow storm which
set in at dusk last evening has continued
without abatement. The ground is cov-
ered to a depth of twenty inches. Traffic
on the Pennsylvania Valley road is prac-
tically at a stand still.

SWIFT BY THE BLIZZARD.

Saratoga, N. Y.—The Adirondack
region is being storm swept by the bliz-
ard. A foot of snow has fallen since
midnight and is being drifted by the
northern gale.

A RAGING STORM.

St. Louis.—All morning trains at this
point bear evidence of a storm raging in
the Mississippi valley. Those from the
south are especially covered with snow.
The conductors report about fourteen
inches of snow about Paducah.

AN UNUSUAL STORM IT IS.

Washington.—From the weather bureau
it is learned that the chief characteris-
tic of the present storm has been the rapid-
ity of its development and movement,
this result being largely due to a baro-
metric pressure in Montana of 31.3 in-
ches, the highest recorded by the weather
bureau. Rain or snow has fallen gener-
ally east of the Mississippi, while from
the west cold weather and high winds are
advancing. Bismarck leads the cold
weather stations with 27 degrees below
zero, and it is eighteen below at many
points in the far northwest.

SNOW IN KANSAS.

Kansas City, Mo., Dec. 27.—A mild
blizzard swept over central Kansas yester-
day. Snow began falling shortly after
midnight and kept it up steadily all day.
The snow in many places is six inches
deep. It is very cold to-day.

HOT ON THEIR TRAIL.

The Lexow Committee Gets After the
Police Leaders—A Sensational
Session To-day.

New York, Dec. 27.—Inspector Wil-
liams resumed his testimony to-day be-
fore the Lexow committee at 1:35. At-
torney Goff called the names of Captains
Martin, Meekill, Washburn and West-
ervelt. It was stated by Inspector Wil-
liams that Westervelt was sick. Goff re-
ported: "Capt. Westervelt was well
enough to be at his station two hours ago
when subpoenaed." "Capt. Meekill has
been ill," continued Goff, "but the police
surgeon has testified that his illness is
not serious enough to prevent his attend-
ance, if he desires to come. I shall ask
you to call on Capt. Meekill. If he is

AN HONEST MAN

and is not guilty of the corruption
charged against him, he will come here
and testify. I hope that these
words will reach him, and that he will
weigh their meaning."

Prosecuting Attorney Goff then put
Inspector Williams through a rigid ex-
amination, in the course of which Goff
said: "Don't think because you wear a

gold shield here and are inspector that
you are

ONE WHIT DIFFERENT
from any other witness." "I know I am
not," replied Williams meekly.

Coming to the time when Williams had
charge of the 8th precinct, Goff asked
the witness if there were any houses of ill
fame there. "I found them there," he re-
plied. "And you left them there?" "Yes,
because they were fashionable at that
time," was Williams' extraordinary re-
ply.

Lord Churchill's Condition.
London, Dec. 27.—Lord Randolph
Churchill passed a quiet night and morn-
ing and is in a less comatose condition
and is somewhat stronger.

Plowing on Christmas.

Omaha, Neb., Dec. 27.—Various points
in the state along the northern border
report a heavy snowfall last night. The
farms are very much in need of moisture.
For the first time in years plowing is
going on in Nebraska during Christmas
week.

TWO OF A KIND.

Negro Outrages in Which White
Toughs Bring Discredit on Law
Abiding Communities.

Bay Minette, Ala., Dec. 27.—Tim Thomp-
son, a little negro boy, was asked to
dance here to-day for the amusement of
some white toughs. He refused, saying
he was a church member. Jim Josling,
one of the men, knocked him down with
a club and danced upon his prostrate
form. He then shot the boy in the hips.
The boy is dead, while the murderer is at
large.

LAWBREAKERS REPRISALIZED.

Quitman, Ga.—The Brooks county board
of commissioners to-day issued a state-
ment deploring the recent lawlessness,
appealing to the courts to bring the
criminals to justice and asserting that
there has been no race war and that the
trouble was all caused by twenty-five
white men, not over four of whom live in
the county.

Married an Indian Girl.

Carlisle, Pa., Dec. 27.—Dennison Whee-
lock, Indian director of the Indian school,
and Louise La Chapelle, a Chippewa girl,
were married yesterday at noon at Cap-
t. Pratt's residence, Rev. Dr. Norcross, of
the Presbyterian church, officiating.
Wheelock is a graduate of the school.

AFTER SEVERAL YEARS.

A \$150,000 Defaulter Returns and
Gives Himself Up—He'll Prob-
ably Go Free.

Jamestown, N. Y., Dec. 27.—Dwight
Miner, of the Miners' Bank of Dunkirk,
who defaulted in 1885 for \$150,000, re-
turned and gave himself up last night.
He was admitted to \$3,000 bail. The
bank has realized about \$85,000 on his
estate, and as most of the principal wit-
nesses against him are dead, he may go
free.

Desperados Safely Hidden.

Coffeyville, Kas., Dec. 27.—Jim French
and Cherokee Bill, with their band of
raiders, who robbed the depot at No-
wata Saturday, are known to be between
Tulsa and Sapulpa, where they have good
hiding places. They are harbored by
people in that section, not because of
friendship, but through fear of personal
revenge by the bandits if the hiding
places should be revealed. Cherokee
Bill says that Bill Cook has left the ter-
ritory.

Low Figures at Los Angeles.

Los Angeles, Cal., Dec. 28.—Ten thou-
sand people saw the crack pacers and
trotters of the country go against their
records yesterday. The track was at
least three seconds slow, and no records
were broken. Directly, the champion
2-year-old, went against his record of
2:07 1/2, but could only go in 2:09.

Robert J. beat Joe Patchen in the pac-
ing race, winning the first, third and
fourth heats in 2:08 1/2, 2:08 1/2 and 2:08 1/2.
Patchen won the second heat in 2:13.
Emil Ulbrecht, a local bicyclist, raced
against Flying Jib and beat the pacer in
2:04. Jib's time was 2:07.

Five Gifts From Mrs. Hearst.

Lead, S. D., Dec. 28.—One of the finest
and best appointed libraries in the whole
northwest was presented with appropri-
ate ceremonies to the citizens of this
place last evening by Mrs. Phoebe A.
Hearst, widow of the late senator from
California. The library and reading
rooms occupy the third floor of the new
hall recently erected by the Miners' union,
and contain in addition to a well
selected stock of literature, embracing
the leading dailies and periodicals of
Europe and America, all the parapher-
nalia necessary to play the popular game
new in vogue. Once a fortnight a
free musical recital will be given in the
main reading room, Mrs. Hearst having
employed a librarian, with musical tal-
ents and sent with the furniture a magnif-
icent piano.

COULDN'T HOLD WATER.

The Charges Against Those Connect-
ed with the Bowles Shooting Con-
tent Are Dismissed.

New Orleans, Dec. 27.—The cases
against George Lavigne, and the second
and others connected with the contest in
which Bowles was killed were to-day dis-
missed.

ON THE MARCH.

The Chinese Armies Are Kept Busy
These Days Getting Away
from the Japs.

Yoka home, Dec. 27.—Gen. Katouga re-
ports from Hai Chang Monday that the
Chinese army under Gen. Sung, after the
defeat at Rogasi, fled to New Chang and
thence retreated to Denshodai, being
joined by a mob of Chinese troops sta-
tioned at New Chang, which town was
evacuated. Scouts who were sent in the
direction of Pochi report that about
8,100 Chinese are advancing from Cilco
along the seashore.

Even Iowa Will Irrigate.

Eldora, Ia., Dec. 27.—The only system
of land irrigation in the Mississippi val-
ley is now being undertaken in Hardin
county, the farm of Justice Willis, six
miles east of Eldora.

Mr. Willis has long been one of the most
progressive and successful agricultur-
ists in Iowa. At the cost of several
thousand dollars he has begun a system-
atic laying of water pipes throughout a
large tract of bottom land.

The pipes are two inches in diameter
and are laid two feet under the earth to
prevent freezing in winter. These pipes
parallel each other at a distance of about
thirty feet.

At convenient intervals hydrants rise
from the water main through which the
water is forced into a hydraulic ram.
The interval of distance is determined by
the lay of the land, if the lay is a liberal
slope the hydrants occur less often. The
hydrant ram is a small round reservoir
with three stop cocks, one on either side
and one in front.

The water can flow through all at the
same time, but ordinarily the side flow
will be utilized.

The head water or source of the flow
will be a reservoir of several hundred
barrels capacity, which will be supplied
by surface flow and by pumping in case
of necessity. Mr. Willis is confident of
the feasibility of the scheme. The only
question is one of profit. He expects to
irrigate by this process about 1,000
acres of land, while its capacity is suf-
ficient for 2,000 acres.

The Hardin county irrigation scheme
will directly benefit the county, and the
outcome of it may lead to a new system
of farming in the central valley states.

TO-DAY'S WIRINGS.

A telegram from Leobizond says that
the Turkish garrison in Armenia is being
reinforced.

The New York Central railroad to-day
declared its regular quarterly dividend of
1 1/2 per cent.

At a meeting of the college presidents of
Indiana in Indianapolis to-day, it was
decided to forbid intercollegiate foot
ball.

Robbers entered the residence of
Henry Fecker at Piqua, Ohio, at 10 o'clock
to-day, while the family was absent, and
secured between \$4,000 and 5,000 in cash.

Shortly after 1 o'clock this morning,
a bomb was exploded close to the Pa-
lazzo Piamonte at Rome. The United
States embassy was not damaged.

A new scale of wages for the Edgar
Thompson Steel company has been pre-
sented to the men. An average reduction
of 15 per cent is made. Two thousand em-
ployees will accept the new scale.

At Ellipton, Miss., several negroes
were playing craps quarreled last
night. Louis Allen shot four negroes,
two being killed outright, and two mor-
tally wounded. Allen was killed.

H. W. Perry, proprietor of the Chicago
Dry Goods store at Fort Worth, Tex.,
to-day executed a deed of trust to J. L.
Terrell for the benefit of his creditors.
The liabilities are \$33,000; assets not
known.

open last night and the burglars escaped
with considerable plunder. The bank is a
private institution, owned by M. B.
Castle, editor and owner of the Sandwich

An Indian Massacre.

Guaymas, Mex., Dec. 27.—The Yaqui
Indians in the valley of the Yaqui river
in the western part of the state visited
the ranch of Jello Cadenas and mas-
sacred him, together with his wife and
two children. The government troops
went in pursuit and it is reported they
had a skirmish in which several Yaquis
were killed.

TAKING A SMOKE.

A Homing Pigeon Brings News from
the Explorers of Mount Rainier.

Seattle, Wash., Dec. 27.—The Pest-In-
telligence exploration party has fully
confirmed the previous statements that
smoke has ascended from the summit of
Mount Rainier in the last two months, for
the explorers are now camped on the side
of the mountain over half way to the
summit and have actually seen great vol-
umes of smoke and geysers of steam
pouring from the crater. This news was
brought by a homing pigeon to Fred S.
Meeker's loft at Puyallup. The following
is the message:
"St. Elmo's Pass, altitude 8,000 feet, 12
noon, Christmas day.—The expedition
has demonstrated beyond all doubt that
Mount Rainier has been smoking. Yester-
day afternoon while crossing the vast
snow field dividing the Ellyson field and
Winthrop glacier Major Ingraham sud-
denly shouted, 'See the smoke; see the
steam.'"
"The top of the mountain was fully five
miles away, and jets of steam like geysers
shot upward 200 feet or more, and further
to the right a column of densely black
smoke rose from the crater in a fitful curl
to a height of several hundred feet."

PLACED UNDER ARREST.

The Officials of the Defunct St. Johns
Bank Have Charges Preferred
Against Them—Prominent
Men Implicated.

St. Johns, N. F., Dec. 27.—The directors
and managers of the Commercial bank
were arrested to-day on warrants issued
by Judge Conroy. They are charged
with presenting a false statement of the
bank's condition at the last annual meet-
ing, by including among its assets securi-
ties which were hypothecated to London
and Westminster bank to effect overdrafts.
The directors are A. F. Goodridge, ex-
premier of New Foundland; James Good-
fellow, chairman of the board of directors;
E. J. Duder, George A. Hatchings and
James Pettis, ex-cabinet minister. Pettis
is not yet in custody, as he is in Nova
Scotia. The manager arrested is Henry
Cook. Bail will be accepted for all
prisoners. No allegations are made of
personal misappropriation.

A LAND MARK DESTROYED.

The Old Capitol of Georgia Gutted in
a Fire To-day—Heavy Loss.

Atlanta, Ga., Dec. 27.—The old capitol
building, formerly the seat of state gov-
ernment, but now owned by Venable
Brothers, and used as an office building,
was visited by a disastrous fire this
morning with a total loss of \$300,000.
The building was purchased by the state
under the reconstruction regime for
\$400,000. When the new million dollar
capitol was built, it was sold to Venable
Brothers for \$125,000. The origin of the
flames is thought to have been incendiary.

The Telegraph Contest Again.

Judge Laughlin has under advisement
a very important controversy involving
the right of the Postal Telegraph com-
pany to string its wires across the Santa
Fe bridge near the A. & P. junction just
below Albuquerque. Some time ago one
of the Santa Fe receivers, Mr. Walker,
notified the Postal people that the wire
in question must be removed, as the
Western Union company insisted on a
compliance with the contract with the
exclusive right to the use of the
bridge for that purpose. Mr. W. B.
Childers, an attorney for the Postal com-
pany, asked for an order restraining the
receivers from making the threatened
change. Judge Laughlin granted a tem-
porary order, and a few days since the
case was argued fully on final hearing.
Judge Laughlin will render his decision
shortly.

The J. P. Election.

The Democrats of precinct No. 3 held
a meeting last night at Simon Vigil's hall
for the purpose of nominating a justice
of the peace and constable to be voted
on in the election to be held on the
second Monday in January. Capt. Can-
delario Martinez presided and Benigno
Muniz was chosen as secretary.

A large crowd numbering not less than
100 was present. Mr. Placido Padilla
was nominated for justice of the peace
and Mr. Luis Lojan for constable.

Extraordinary speeches were made by the
nominates after which the meeting ad-
journed.

The San Ildefonso Democrats held a
well attended meeting Monday night for
the same purposes. Anastacio Gomez
acted as president and Cosme Herrera as
secretary. On motion of Deciderio
Gomez, Balcin Gonzalez was nominated
for justice of the peace and Andres Mar-
tin for constable, on motion of David
Romero.

The Republicans of city precinct No.
17 have nominated for justice of the
peace the present incumbent, Jose Maria
Garcia, and for constable, Francisco
Anaya. Probate Clerk Romero has re-
ceived notice that at a meeting just held
at Lamy Tomas Sanchez was nominated
for justice of the peace and Francisco
Chavez y Alarid for constable.

A GREAT GOLD REGION.

Splendid Deposits of the Yellow Stuff
in the San Juan Valley.

Quite a ripple of excitement was
caused in Farmington yesterday by Judge
Foster bringing down from one of his
claims on the Foster mine, a small sack
full of dirt that fairly glittered with par-
ticles of gold. There was no doubt about
it, it responded readily to acid tests
and remained in a small glass of nitric
acid as bright and pretty as you please.
The sample was taken from a hole
eighteen feet below the surface from
which an assay at the depth of ten feet
recently gave a return of \$18. There was
over a dollar's worth of gold in the glass,
picked out with the point of a knife from
a handful of earth. Imagination ran
riot as to the worth of the claim. Mr.
Foster has had five acres of land on the
mine measured off, upon which he in-
tends to make a very searching and thor-
ough test. He will sink about twenty
shafts, each about ten feet in depth.
Several of these shafts will be sunk to
bed rock, and assays taken at all depths
and under all conditions, in order to test
the claims. On motion of Deciderio
Gomez, Balcin Gonzalez was nominated
for justice of the peace and Andres Mar-
tin for constable, on motion of David
Romero.
